

7. Write a Pandas program to create a Pivot table and find the maximum and minimum sale value of the items.

Aim

To create a Pivot Table and find the maximum and minimum sale value of each item using Pandas.

Procedure

1. Import the pandas library.
2. Read the sales CSV file.
3. Create a pivot table using Item as the index.
4. Calculate the maximum and minimum sale values.
5. Display the pivot table.

Program and output:

```
import pandas as pd
from google.colab import files
uploaded = files.upload()
df = pd.read_csv("sales.csv")

pivot = pd.pivot_table(df,
                        values="Sale_Value",
                        index="Item",
                        aggfunc=["max", "min"])

print(pivot)
```

... Choose Files sales.csv
sales.csv(text/csv) - 161 bytes, last modified: 7/23/2026 - 100% done
Saving sales.csv to sales.csv

	max	min
	Sale_Value	Sale_Value
Item		
Laptop	80000	50000
Mobile	25000	18000
Printer	25000	15000
Tablet	35000	20000

Result

Thus, the Pivot Table showing the maximum and minimum sale values of each item was created successfully.

8. Write a Pandas program to create a Pivot table and find the item-wise units sold.

Aim

To create a Pivot Table and find the total units sold for each item using Pandas.

Procedure

1. Import the pandas library.
2. Read the sales CSV file.
3. Create a pivot table using Item as the index.
4. Calculate the sum of units sold.
5. Display the pivot table.

Program and output:

```
import pandas as pd
from google.colab import files
uploaded = files.upload()
df = pd.read_csv("sales.csv")

pivot = pd.pivot_table(df,
                        values="Unit_Sold",
                        index="Item",
                        aggfunc="sum")

print(pivot)
```

```
... Choose Files sales.csv
sales.csv(text/csv) - 161 bytes, last modified: 7/23/2026 - 100% done
Saving sales.csv to sales (1).csv
      Unit_Sold
Item
Laptop         13
Mobile         16
Printer         8
Tablet         11
```

Result

Thus, the Pivot Table showing the item-wise total units sold was created successfully.
